

SAGAR

City Map of Sagar

Action Plan for Control of Air Pollution in Nonattainment City of Madhya Pradesh (Sagar)-

About City -

The district of Sagar lies in the north central region of Madhya Pradesh. It was spelled as Saugor during the British period. It is situated between 23 deg 10' and 24 deg 27' north latitude and between 78 deg 4' and 79 deg 21' east longitude, the district has a truly central location in the country. The tropic of cancer passes through the southern part of the district.

The origin of the name comes from the Hindi word SAGAR meaning lake or sea, apparently because of the large and once beautiful lake around which the town of Sagar has been built. Sagar was founded by Udan Singh in 1660 and was constituted a municipality in 1867. A major road and agricultural trade centre, it has industries such as oil and flour milling, saw-milling, ghee processing, handloom cotton weaving, bidi manufacture and railway and engineering works. It is known in all over India due to its University named as Dr. Harisingh Gour University and Army Cantonment and recently it has come into lime light due to Bhagyoday Tirth a charitable hospital named after a Jain Sant Shri Vidyasagarji Maharaj. It is known for Police Training College which are only two in Madhya Pradesh other one is in Indore. Head quarter of Forensic Science Lab is also in SAGAR.

Sagar lies in an extensive plain broken by low, forested hills and watered by Sonar river. Wheat, chickpeas, sorghum, and oilseeds are chief crops of the region, there is extensive cattle raising. Sandstone, Limestone, iron ore and asbestos deposits are worked. The archaeological site nearby Eran has revealed several Gupta inscriptions. District Sagar is predominantly a Scheduled Caste/Backward class district. These together form about 75% of the district. The district has sizable population of tribals who are named as Rajgonds after their kingdom.

Boundaries:-

The district is bounded on the north by Jhansi district of Uttar Pradesh, on the south by the district of Narsinghpur and Raisen, on the west by the district of Vidisha, and on the east by the district of Damoh, which was previously formed the part of Sagar District. On the north-east and north-west, the district adjoins Chhatarpur and Ashok Nagar districts, respectively. The district is accessible by rail as the town of Sagar lies on the Bina Katni branch line of Western Central railway. Sagar is 76 Km from Bina which is on the Bombay Delhi main line. The district is traversed by first class roads which connect it with important towns like Damoh and Jabalpur on the east and south east, respectively, Lalitpur and Jhansi on the north, Chhatarpur on the north east and Bhopal on the south-west. Bhopal the capital of Madhya Pradesh is about 208 Km from Sagar by road.

Natural Resources:-

It is traversed by numerous streams, chief of which are the Sunar, Bebus, Dhasan and Bina rivers, all flowing in a northerly direction towards the valley of the Ganges. In the southern and central parts the soil is black, formed by decaying trap; to the north and east it is a reddish-brown alluvium. Iron ore of excellent quality is found and worked at Hirapur, a small village in the extreme north-east. The district contains several densely wooded tracts, the largest of which is the Ramna teak forest preserve in the north.

Area and Population:-

Sagar town is the district head quarter which is eightth largest district in size in the State, and the largest in the Sagar revenue division. The district is divided into eleven tahsils, viz, Bina, Khurai, Malthone Banda, Shahgarh, Rahatgarh, Sagar, Rehli, Garhakota, Deori and Kesli each in the charge of a SDM/Tahsildar according to the Surveyor-General of India, the district has a total

area of 10252 sq Kms and is shaped roughly like a triangle. The Municipal area of the Sagar town is 33.75 Sq.km. and it has the population of 2,73,296 as per 2011 census.

About Sagar Lake:-

Though there was little conscious town planning in Sagar till recent times, the town of Sagar itself was constructed around the large lake, which according to tradition, is believed to have been constructed by one Lakha Banjara in the 11th century. It was however, Govind Rao Pandit, the Peshwa's representative in charge of Sagar Kingdom who first planned Sagar town as the capital of the territory. The British who took the town on 1818 made it a Commissioner head quarters and a Cantonment for the army.

The lake which forms the centre of the town, extends over an area about 400 acres. Formally it was perhaps much larger and covered the ground on which the Town Hall, the Tehsil Office and Gopal ganj quarters now stand. The present Collectorate a large building situated on a hill overlooking the City, was constructed in 1820 as the residence of the Governors General Agent. The lake improved and deepened during the famine of 1900 at a cost of about Rs. 7000. Due to topography of the region and the existence of the Sagar Lake very little improvement was effected in the old parts of the town.

Industries at Sagar:-

Government of MP has kept Sagar in category 'C' of industrial backward districts. For Industrialization and business purpose District Industry centre is working as Nodal Agency. Main and traditional business of Sagar is Bidi Making and found in whole of Sagar district. After 1978, establishment of District Industry Centre took place and lead to the opening of new industrial units around Sagar town. However there is no industry of concern which may cause air pollution inside the municipal limit of Sagar. Inside the municipal area lies Semi Urban industrial Estate Subhashnagar which has unit of dall mill and plastic shoe making unit, which are not air polluting.

Source of Air Pollution-

The major source of air Pollution in Sagar are Vehicular emission, construction activity, Poor road quality, Traffic Jam, Diesel/ Petrol adulteration, Dust near road side, stay animals on road. M.P. Pollution Control Board is regularly monitoring the Ambient Air Quality at Sagar through two manual NAMP Station installed at Pd. Deen Dayal Nagar, Housing Board Colony & New Colony Tili Sagar. As per the available record between 2011-2015, the average value of PM₁₀ was found to be more than 60 $\mu\text{g}/\text{m}^3$. MPPCB prepared a short term & long term action plan and sent for implementation to various stake holder departments. RTO increased the regular checking of the vehicles and the 15 years of old public transport vehicles has been banned. The collective approach has decreased the Air pollution level of the city drastically. It has been observed during 2016-2018 that the PM₁₀ of Sagar city has dropped.

Compliance status of Direction issued by CPCB under section 18(1) (B) of the Air (Prevention &Control of Pollution) Act, 1981 regarding prevention & control of pollution in non-attainment cities.

1. To comply the above directions issued by CPCB, the department of environment Govt. of M.P. organized a meeting on dated 16.09.2016 under the Chairmanship of Chief Secretary of Govt. of M.P. in this meeting the secretaries of various stake holder departments were present. In this meeting Chief Secretary, gave direction to constitute a committee at district level under the chairmanship of respective Divisional Commissioner and the heads of various nodal departments responsible for implementing the action plan for non-attainment cities.
2. Divisional Commissioner Sagar constituted a committee of 09 departments vide letter no. 17 dated 06.01.2017. The committee consists of Collector Sagar, SP Sagar RTO Sagar, Commissioner Nagar Nigam Sagar, Food Controller Sagar, CE-PWD, GM-DIC, & RO-MPPCB Sagar.
3. Various meetings of above committee held time to time at dated 17.01.2017 & 13.03.2018 and divisional commissioner directed all the departments to implement action plan in time. The work related to various departments is going on. It is stated that most of the works belonged to Nagar Nigam Sagar.

Action Plan for Non Attainment City – SAGAR as per Hon'ble NGT Principal bench, New Delhi

Case No. 681/2018 Order dated 08.10.2018

Source Group	Action Plan	Implementation Period (Short/Mid/ Long-term)	Time Target for implementation	Responsible agency (ics)	Work to be done	Compliance Report
Vehicles	1. Restriction on plying and phasing out of 15 years old commercial diesel driven vehicles.	Long	12 Months (Policy matter- decision at Govt. level)	Transport Department/ RTO	-	<p>1. Department has restricted 15 year old commercial diesel driving vehicle (Auto) since 09.03.2015, department has replace 943 diesel driving vehicles by LPG based vehicles.</p> <p>2. As per Central Motor Vehicle Act, 1988, Sec.59 “Power to fix the age limit of motor vehicle” under this section Central Government is empowered to fix the age limit of motor vehicle.</p> <p>3. To phase out 15 year old all Commercial diesel driven vehicles</p> <p>(Annexure-01)</p>

	2. Introduction of cleaner fuels (CNG/LPG) for vehicles	Mid	June 2019	Transport Department/ RTO & Oil companies	-	1. Department is promoting introduction of cleaner fuels & Food Dept. is planning to Promote CNG/LPG fuel for Vehicle in Sagar City.
						2. Department has replace 943 driving diesel vehicles by LPG based vehicles.
						3. Registered Vehicles- . 1. LPG base 2352 no (Car/Auto) 2. E- Ricksha - 03 no. (Annexure-01 & 02)

				from where each result can be seen and recorded.	center which are working. (Annexure-01)
Short	02 Months			3. To open about 30 nos. Pollution check centres at various locations such as all the Petrol pumps & all the authorized workshops of city Indore.	
Mid	06 Months			4. PUC instruments to be calibrated once in six month.	
Mid	06 Months			5. PUC certificate of vehicle should be checked regularly and vehicles not having valid PUC certificate should be panelized.	
		Traffic Police	12 Months	1. Installation of RLVD system in prominent squares of the city.	Traffic police make various one way in Sagar city to control heavy traffic.
		Long	12 Months	2. Centrally controlled messages to public through LED display in prominent squares.	
		Long	24 Months	3. Construction of	Construction work is
4. Good traffic management including re-direction of traffic movement to avoid.	Long				

				Flyovers at Makroniya Railway bridge	started.
5. Ban on registration of Diesel driven Auto-Rickshaw/Tempos.	Short	April 2018	Transport Department	-	Ban has imposed from 09.03.2015 on diesel driven auto rikshaw. (Annexure-01)
6. Promotion and operationalization of E-Rickshaw	Mid	06 Months	Transport Department	-	Department is planning to promote E-Rickshaw in city. (Annexure-03)
7. Development of Multi-layer Parking.	Long	24 Months	MC. UD & HD & District Adm.	Under study in Smart city mission.	 (Annexure-03)
8. Retrofitting of particulate filters in diesel driven vehicle.	Long	24 Months	Transport Department	-	It is a policy decision.
9. Checking of Fuel adulteration	Short	Already being implemented as a regular regulatory work.	District Adm/ Food Controller & Oil Company	1. Already implemented. Food controller, Sagar is conducting regular checks every month. 2. Food deptt. has checked 36 petrol pump & Registered 07 case and imposed fifty thousand rupees fine on fuel pump. (Annexure-02)	
10. Monitoring on vehicle fitness	-	Already being implemented as a regular	Transport Department & Traffic	-	Fitness of vehicles checked as per annually basis.

		regulatory work.	Police		(Annexure-01)
11. Periodic calibration test of vehicular emission monitoring instrument	Mid 06 Months	Transport Department/ RTO	Periodic calibration test of vehicular emission monitoring instrument	<ol style="list-style-type: none"> Regular vehicular monitoring is done by RTO/Traffic Police & MPPCB. On an average department is doing monitoring of 500 vehicles per month and RO MPPCB is doing 100 vehicles per month. During last year department has imposed case fine of Rs. 408000/- on 136 Polluting vehicles. Periodic calibration test complied. 	(Annexure-01)
Road Dust	<ol style="list-style-type: none"> Regular cleaning of road dust. Water Spraying on road through tankers. 	<p>Mid 12 Months</p> <p>-</p>	<p>MC - Sagar</p> <p>MC - Sagar</p>	<p>Mechanized sweeping machines for road cleaning under consideration.</p> <p>-</p>	<p>Manually regular cleaning</p> <p>(Annexure-03).</p> <p>Water Spraying on road through tankers.</p> <p>(Annexure-03)</p>

	3. Construction of pucca pavement along the roads.	Long	12 Months	MC - Sagar and Road Construction Department	Construction of pucca pavement along the roads.	1. Pavement construction done as required along Sagar city road. 2. Pavering has done by agency on Sagar-Makroniya city link road, Civil line area & Sanjay drive to BMC road. 3. Lenth of road in Sagar city- • 10.00 KM.. Tar road, 99.76 KM. Cement concreat road & 5.00 KM. Pavering along the road are constructed by MC Sagar (Annexure-03 & 04)	1. Pavement construction done as required along Sagar city road. 2. Pavering has done by agency on Sagar-Makroniya city link road, Civil line area & Sanjay drive to BMC road. 3. Lenth of road in Sagar city- • 10.00 KM.. Tar road, 99.76 KM. Cement concreat road & 5.00 KM. Pavering along the road are constructed by MC Sagar (Annexure-03 & 04)	Nagar Nigam Sagar has done plantation along the major roads in Civil line area, Medical College area & surrounding the Sagar lake. Plantation is also done in public parks. It is a regular activity.	(Annexure-03)
	4. Tree Plantation along the roads.	Long		Plantation work in road dividers, in parks and road sides is continuously being done by Municipal Corporation	Department of Environment and forest	Tree plantation along the roads.			

	5. Development of green belt in open areas, Parks/ places, housing societies.	Long	Aug. 2019	Department of Environment and forest	Development of green belt in open areas, gardens, Parks/ schools & other remaining areas of Sagar city.	Nagar Nigam Sagar developed Chandra park, Gour park & Madhukar Shah park in Sagar city & Plantation work under divider in various areas in Sagar city. It is a regular activity. (Annexure-03)
	6. Introduction of Water fountains at major traffic intersection/Golambar/ circle	-	-	MC - Sagar	-	There is no such special requirement of Water fountains at major inter section. (Annexure-03)
Construction activities	1. Covering of construction site.	Short	1. MC-Sagar has mentioned the condition of covering of construction site in building permission. 2. MC-Sagar conducts regular checks to comply the conditions.	Building Construction Department and MC - Sagar	Covering construction site.	Municipal Corporation Sagar has directed to its citizens to strictly follow provisions of construction & demolition Waste Management rules, 2016. (Annexure-03)
	2. Transportation of construction materials like sand, soil, stone chips etc. in covered system.	-	-	Transport Department District Adm.& Traffic Police	-	Instruction has been given to all transporters to transport material in covered system. (Annexure-01)

	3. Restriction on storage of construction materials along the road.	-	-	MC - Sagar	Restriction on storage of materials along the road.	Municipal corporation Sagar has directed to ensure metal sheet covering of full height along the area and regular Water sprinkling to control of fugitive emission generate during C&D activities.	Municipal Corporation Sagar has directed to ensure metal sheet covering of full height along the area and regular Water sprinkling to control of fugitive emission generate during C&D activities. (Annexure-03)
Biomass and garbage burning	1. Restriction on open burning of municipal solid waste, Biomass, plastic horticulture waste etc.	-	MC-Sagar has issued order to prevent all types of garbage burning along with horticulture & agricultural wastes.	MC - Sagar	Restriction on open burning of municipal solid waste, Biomass, plastic horticulture waste etc.	Solid Waste in present MSW disposal area, Water sprinkling is done as per need.	Municipal Corporation Sagar is taking all the possible major to prevent burning of Municipal Solid Waste in present MSW disposal area, Water sprinkling is done as per need. (Annexure-03)
	2. Immediate lifting of solid wastes generated from de-silting and cleaning of municipal drains for its disposal.	-	It is a regular activity.	MC - Sagar		Immediate lifting of wastes generated from de-silting and cleaning of Municipal drain, done periodical.	Proper door to door Collection, Segregation & transportation of MSW & other Waste. It is ensured that
	3. Transportation of Municipal solid wastes, construction materials and debris in covered system.	-	-	MC - Sagar	Transportation of Municipal wastes, construction materials and debris in covered system.		

				MSW transportation is in covered manner. <u>(Annexure-03)</u>
	4. Ensuring promotion & use of cleaner fuel for commercial purposes like local Dhaba/ eateries.	Long Its continuous process of implementation. However all Hotels/ Restaurant/ eateries are using LPG.	District Adm. & Oil Company	Ensuring promotion & use of cleaner fuel for commercial purposes like local Dhaba/ eateries.
Industries	1. Ensuring installation and operation of air Pollution Control devices in industries	-	SPCB	-
	2. Ensuring emission standards in industries.	-	SPCB	-
	3. Adoption of cleaner technology in brick kilns at five block of City Name Viz. city Name Sadar, Phulwarisharif, Maner and Fatuha by 31.08.2018	-	SPCB	-
	4. Shifting of Polluting industries	-	SPCB & Industry	No air polluting industries is

				Department	identified in the area, which is required to sifted. (Annexure-05)
5. Ban on industries.	Pollution	-	No highly polluting industry is permitted in the nearby area. Hence no such ban is required.	SPCB & Industry Department	No action required. (Annexure-05)
Strengthening of AAQ Monitoring	1. Installation of four CAAQMS at City Name. A. Two CAAQMS stations under CSR funds of CPSU through Central Pollution Control Board at Eco-Park and IGIMS, city Name premise. B. Two CAAQM stations under state Govt. financial assistance.	-	SPCB	Installation of CAAQMS in Sagar city is under consideration in Sagar Smart city project.	1. MPPCB Sagar is monitoring ambient air quality at 02 locations- namely Deen Dayal Nagar & New Colony, Tili road, with the help of manually operated monitoring stations twice in a week basis. 2. The AQI is calculated & displayed on Board's website regularly.
Public Awareness	1. Issue of advisory to public for prevention	-	SPCB	Source appointment study	The air quality index of Sagar city is observed in satisfactory category. MPPCB Sagar has organized Public
	2. Source apportionment study	-	SPCB & MC - Sagar	Issue of advisory to public for prevention	

	and control of air pollution.	process.	and control of air pollution.	awareness program for prevention & control of Pollution from time to time specially World Environment Day, Dassehra/Diwali day.
2.	Involvement of school and other academic institution in awareness program.	It is regular activity	SPCB	Involvement of school and other academic institution in awareness program.
Others	1. Compliance of guidelines on D.G. sets and action against violation.	Short routine regulatory process	Being done as a SPCB & MC - Sagar	Compliance of guidelines on D.G. sets and action against violation. For Control of Air & Noise Pollution all the D.G. Sets are having canopy & suitable venting arrangements. No DG sets are allowed to be operated in city Sagar without having appropriate canopy (Annexure-03)
	2. Help line to oversee non compliance on aforesaid issues.	-	SPCB & MC - Sagar	Help line to oversee non compliance on aforesaid issues. Municipal Corporation has setup a helpline number for compliance on aforesaid issues and others. (Annexure-03)
